

Annex VI: Abbreviated ESMP

Please find below the template for the abbreviated Environmental and Social Management Plan (ESMP) - template 1. The ESMP documents the E&S impacts and identified measures, their costs, and the timeline and responsibilities for implementing the measures.

Another template (template 2) serves to report on the implementation of the mitigation measures as part of project monitoring. Please refer to the Guidance Note ESMP for additional information.¹ Where the impacts are complex and significant, it may be useful to develop indicators and targets to ensure appropriate monitoring. See the Guidance Note for a template and guidance.

Capacity Development

Where support for strengthening social and environmental management capability is identified, ESMP recommends the establishment or expansion of the parties responsible, the training of staff and any additional measures that may be necessary to support implementation of mitigation measures and any other recommendations of the environmental and social assessment.
