

# 1,231 MPAs

Convention on Biological Diversity

2020 Aichi target 11

All MPAs and OECMs: 7.14 %

National designations: 1.60 %

No-take zones: 0.04 %

Largely coastal and European  
Mostly cover shallow waters

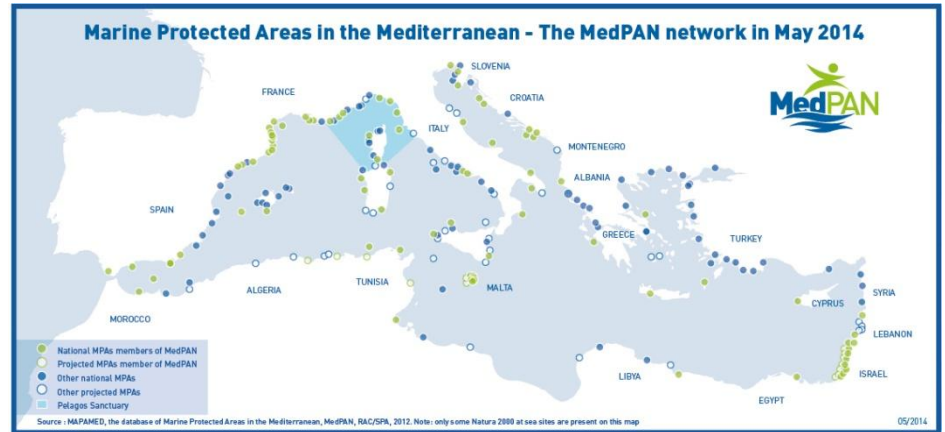

Few management plans  
Lack permanent staff  
Insufficient funds  
Weak enforcement

Mediterranean sea

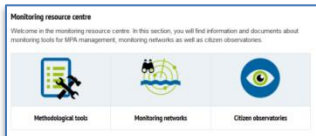

# The MedPAN network

- 65 members, 41 partners, 18 countries, 110 MPAs
- Secretariat of 7 persons in Marseille
- Governance: Board of Directors, Scientific Committee, Advisory Committee

# MedPAN activities

**Improve knowledge**

**Share experience & build capacities**

**Communicate and promote**

**MPA Forum and Roadmap**

**Support Trust Fund**

## Next priorities

# Invest on good management

**Reinforce highly protected areas and create new MPAs in the Open Sea**

**Provide long-term resources for MPA management at local level (sufficient human, material and financial)**

**Ensure long-term MPA capacity-building and networking at Mediterranean level**
