

SUN
1/9

Seminar **Strengthening the Basis for Water Cooperation across Borders**
A discussion on water cooperation and the multi-level governance of internationally shared basins.

B7
@ 14:00-17:30

MON
2/9

SideEvent **BRIDGE - Building River Dialogues and Governance**
A look at the lessons learnt from the IUCN BRIDGE project in over 9 trans-boundary basins since 2010.

K24
@ 12:45-13:45

SideEvent **TEEB for Water and Wetlands**
A presentation of the main findings of the TEEB for water and wetlands report.

K21
@ 12:45-13:45

SideEvent **Making IWRM Happen: The Global Water Initiative**
A dialogue to identify future synergies in investment strategies to drive changes for small farmers.

B7
@ 12:45-13:45

Seminar **Rural-Urban Collaboration for water-food-energy security**
Urban and rural stakeholders will highlight the possibilities to bridge divides across agriculture, ecosystems, energy, industry and cities for a water secure future.

B2/3
@ 14:00-17:30

WED
3/9

Seminar **Strengthening the role of water in Green Growth**
A discussion on how to create synergies among the many organisations which seek solutions to strengthen the role of water resource management for successful implementation of green growth.

K2
@ 14:00-17:30

Seminar **Water Management and Peacebuilding: Connecting the Local to International Policy**
An exchange of good implementation practices that bring water and food security together with peacebuilding approaches.

B9/10
@ 14:00-17:30

THU
4/9

Seminar **Eflows: Crossing Climate, Political & Institution Borders**
A look into how environmental flows are applied to new contexts and at varied scales, and the questions that the approaches have raised.

K11
@ 9:00-12:30

Seminar **Transboundary Governance for Resilience and Development**
An exploration of the advantages of multilevel governance and the legal and institutional frameworks that enable cooperation.

K21
@ 14:00-17:30

Seminar **Water and Energy Cooperation in Transboundary Basins**
An exploration into the suitability of the benefit-sharing concept for the management of the nexus in transboundary basins, and a discussion of key influencing factors.

K22/23
@ 14:00-17:30

COME MEET US!

The IUCN Water booth is located at the centre of the exhibition floor, near the coffee area.
